FOREWORD

This is the U. S. Office of Education's 12th annual survey of Students Enrolled for Advanced Degrees in institutions of higher education in the United States. The data were acquired as part of the fifth annual Higher Education General Information Survey (HEGIS).

The 1970 survey of Students Enrolled for Advanced Degrees is published in two parts: Summary Data by State, field of study, and institutional level and control, to be presented in another publication, and the present publication, Institutional Data, with a detailed listing by field of study, level of study, attendance status, and sex of student.

The Office of Education's series on Opening Fall Enrollment, Earned Degrees Conferred, and this survey of Students Enrolled for Advanced Degrees provide an overview of the flow of students through higher education.

The Office of Education is most appreciative of the continued excellent cooperation of the institutions of higher education in providing data for this report.

INTRODUCTION

This report is based on the U. S. Office of Education's 12th annual survey of students enrolled for advanced degrees. It presents detailed listings of graduate enrollments within each field of study as reported by each institution. A companion report will summarize enrollments by State, level of study, attendance status, sex of student, and field of specialization and will compare the 1970 enrollments with those from prior surveys. The survey instrument and instructions to respondents are reproduced in the appendix of this report.

Scope of the Survey

The data in the tabulations in this report are based on data supplied by 884 institutions of higher education in the United States and outlying areas. The 884 reporting institutions were the only institutions enrolling students for advanced degrees in fall 1970 as far as the U. S. Office of Education could ascertain. The breakdown of the reporting institutions was as follows:

286 had enrollments for first-professional degrees as well as for master's or doctor's degrees

522 had enrollments for master's or doctor's degrees only

76 had enrollments for first-professional degrees only

Tables reporting candidates for master's or doctor's degrees are based on a total of 808 institutions; tables reporting candidates for first-professional degrees on 362 institutions. Because all of the 884 institutions responded with complete survey data, it was unnecessary for the U. S. Office of Education to estimate any of the classifications by sex of student, level of enrollment, attendance status, or field of study.

The categories of students to be included or excluded in this survey were the same as for the prior survey. All students enrolled for master's, doctor's, or first-professional degrees in specified fields were to be included. All students not enrolled during the fall 1970 term (even if they were known to be working for an advanced degree), students in programs not terminating in an advanced degree, and postdoctoral students were to be excluded. See section B of the instructions to survey respondents (appendix) for a detailed account of students to be included or excluded.

Student Classification

The classification of students by level of enrollment was divided into two categories: first year and beyond first year. First-year students were those who had completed less than 1 full year of required study for an advanced degree; students beyond the first year were those at all other levels of an advanced degree program.

The classification of enrollments by attendance status was divided into full-time and part-time enrollments. A full-time student was one whose academic load was at least 75 percent of the normal student workload (course work or other required activity) as defined by the institution. All other students carrying less than 75 percent of the normal load were classified as part time.

Organization of the Tables

Tables 1 and 2 give overall summaries of 1970 advanced enrollments. Table 1 is restricted to candidates for master's and doctor's degrees and table 2 to candidates for first-professional degrees. In these tables data are presented separately for universities and for other 4-year institutions.

Classified as universities are institutions that give considerable stress to graduate instruction, confer advanced degrees as well as bachelor's degrees in a variety of liberal arts fields, and have at least two professional schools that are not exclusively technological. Other institutions offering 4 or more years of college-level work, but not meeting the criteria for classification as universities, make up the "other 4-year and over" group. Table 3 is an institutional listing by State showing total enrollments for master's and doctor's degrees. Table 4 is similar to table 3, listing enrollments for first-professional degrees. Table 5 is a detailed listing of graduate enrollments for advanced degrees by field of study, State, and institution. Each of the five tables has separate counts by level of study (first-year students or students beyond the first year), sex of student, and attendance status (full time or part time).

INSTRUCTIONS

NOTE: Data acquired in this survey will be published in listings by individual institutions.

Please read the definitions and instructions which accompany each part. If you need additional clarification on any of the items, please call Mrs. Mary Evans Hooper, *(202)* 962-7301 in Washington, D.C.

A. PURPOSE: The purpose of this survey is to ascertain the number of students enrolled this term for advanced degrees, the students' fields of specialization and their progress toward their degrees.

B. SCOPE OF THE SURVEY: Except for question 2 after Item No. 9800, Part A, this is not a survey of all students taking graduate study, but of all enrolled for a degree beyond the baccalaureate.

1. Students to be INCLUDED in the report:
   a. **Include in Part A** all students enrolled for a master's degree; for a 6-year degree such as Education Specialist *(Ed.S.)*, Civil Engineer *(C.E.)*, etc.; and for the doctorate *(Ph.D., Ed.D., etc.)*.
   b. **Include in Part B** students in professional programs which require at least 2 academic years of previous college work for entrance and which require a total of at least 6 academic years of college work for completion. For example, include students enrolled for first-professional degrees in Law *(LL.B. or J.D.)*, Medicine *(M.D.)*, Theology *(B.D.)* and so forth. Students enrolled for degrees beyond the first professional in these fields should be reported in Part A.
   c. **Include in Parts A and B** students enrolled for an advanced degree on the main campus, on a branch campus, or in an extension center.
2. Students to be EXCLUDED from this report:
   a. Students who, although known to be working on degree requirements, are not formally enrolled this term.
   b. Students enrolled in graduate-level curriculums which lead to increased professional competence, but which do not terminate in an advanced degree. Students in certificate programs for school principals, for example, should be excluded.
   c. "Special" and "unclassified" students taking courses at the levels requested, but not enrolled for degrees.
   d. Post-doctoral students.
   e. Students enrolled at a branch or extension center in a foreign country.

C. TIME PERIOD: Report only those students enrolled as of the fall term of the current academic year *(1970-71)*.

D. THE INSTITUTIONS COVERED BY THIS REPORT: A separate report is requested from each branch or member of a system, as well as from each entirely independent institution and each "parent" institution. Please provide the information requested in Item 6, which is intended to permit complete identification of the reporting unit. *(Do NOT include awards by branches outside the United States, its Territories, or possessions.)*

E. WHERE TO MAIL COMPLETED REPORT: Mail completed report to U.S. Office of Education, National Center for Educational Statistics, 400 Maryland Avenue, SW., Washington, D.C. 20202, ATTENTION: Room 1130-HEGIS by **November 30, 1970.**

SEPARATE SPECIFIC INSTRUCTIONS ARE PROVIDED FOR PARTS A AND B.

DEFINITIONS AND INSTRUCTIONS FOR PART A - STUDENTS ENROLLED FOR MASTER'S AND HIGHER DEGREES

A. GROUPING OF SUBJECT-FIELDS: Please examine Part A of this report to observe how the various fields of study have been grouped. Each subject group is divided to indicate enrollment by men and women. All of the subject-fields have been classified under the following 26 capitalized headings:

1000 AGRICULTURE
1400 ARCHITECTURE
1700 BIOLOGICAL SCIENCES
2000 BUSINESS AND COMMERCE
1500 CITY PLANNING
2100 COMPUTER SCIENCE AND SYSTEMS ANALYSIS
2300 EDUCATION
2600 ENGINEERING
2900 ENGLISH AND JOURNALISM
3200 FINE AND APPLIED ARTS
3300 FOLKLORE
3500 FOREIGN LANGUAGES AND LITERATURE
3800 FORESTRY
4100 GEOGRAPHY
4400 HEALTH PROFESSIONS
4700 HOME ECONOMICS
5000 LAW
5300 LIBRARY SCIENCE
5600 MATHEMATICAL SCIENCES
6500 PHILOSOPHY
6800 PHYSICAL SCIENCES
7100 PSYCHOLOGY
7300 RECORDS MANAGEMENT
7400 RELIGION
7700 SOCIAL SCIENCES
8300 BROAD GENERAL CURRICULUMS AND MISCELLANEOUS FIELDS

If your institution does not enroll students for advanced degrees in one of the 26 subject areas listed above, you may skip all of the items under that heading. Thus, most registrars will properly skip the entire section headed AGRICULTURE. Similarly, many will properly skip the sections on HEALTH PROFESSIONS and on RELIGION. Many specialized professional schools will skip the section on EDUCATION. Technological schools will generally skip the section on FINE AND APPLIED ARTS. Men's colleges will skip the section on HOME ECONOMICS. Appropriate skipping can speed the completion of your report without injury to quality or accuracy.

B. CLASSIFICATION OF ENROLLMENT BY FIELD OF STUDY: Students should be reported in the fields in which they are specializing, regardless of the department, division, or college in which they are enrolled. For example, students specializing in Agricultural Engineering should be reported in Item 2607 under the broad area of Engineering even though they may be receiving their training in the school of Agriculture.

1. Please classify enrollment into fields of study as specifically as the list on the report permits. Example: Enrollment in an Accounting curriculum should be reported as Accounting *(Item 2002)*, NOT in Business and Commerce, General *(Item 2001)*.

2. Enrollment in fields of study which are not listed should be consolidated with the listed fields if such consolidation is descriptive of the specialization. Thus,

Sculpture should be reported in Fine and Applied Arts, other fields *(Item 3213)*;

Astrophysics should be reported in Astronomy *(Item 6804)*;

Geochemistry should be reported in Earth Science, other fields *(Item 6828)*;

Criminology should be reported in Sociology *(Item 7725)*;

Police Administration should be reported in Applied Social Sciences, other fields *(Item 7746)*;

Industrial Design should be reported in Fine and Applied Arts, other fields *(Item 3213)* or in Architecture *(Item 1400)*--depending on the nature of the curriculum; and so on.

3. Fields of study offered by your institution for the first time this term: If enrollments are reported in Fall 1970 for the first time, in a field of study new to your institution, please place an "X" in Column (4). This may save correspondence later regarding the entry.

4. Interarea fields of study: Item 8313 is for reporting fields of specialization which represent two or more broad SUBJECT AREAS. For example, MASS COMMUNICATIONS, encompassing segments of PSYCHOLOGY, EDUCATION, BUSINESS, JOURNALISM, SOCIAL SCIENCES, FINE ARTS, etc., should be reported here. Specify the name of the interarea field of study when reporting in Item 8313.

5. If the field of study does not fit into any of the listed fields, report in Item 8314, Field of Study Not Classifiable in Items 1000 through 8313 Above.

6. If there is no information about the field of study, report the enrollment in Item 8399, Field of Study Not Identified.

7. A cross-reference listing of related fields of study appears at the start of each subject-area on the form. Your attention to these lists will be appreciated.

8. Note that the listing of fields of study within each broad subject area has a similar structure. The first field of study in the list is the general curriculum in the subject area *(with no further specialization)*; the next-to-last field of study is for reporting fields of study within the subject area which are not listed; and the last category is for reporting enrollment where the field of study within the subject area is not known -- where there is no information on the specialization within the subject area.

C. CLASSIFICATION OF ENROLLMENT BY LEVEL OF STUDY: Please classify enrollment into the two following categories;

1. Students who have completed less than one full year of required study for an advanced degree. -- Report in Columns 5-8 students who, prior to this term, had completed less than two semesters or three quarters of full-time graduate study or the equivalent in part-time study. Note that these students are identified by the amount of study completed prior to this term, rather than the number of semesters or quarters in which they have been enrolled.

2. Students who have completed one or more years of required study. -- Report in Columns 9-12 students who, prior to this term, had completed two semesters or three quarters or more of full-time study or the equivalent in part-time study for an advanced degree.

3. Note that the 1970 questionnaire does not request separate estimates of students who are expected to complete all doctoral requirements within the year; rather, such students are to be included in Columns 9-12, "Completed one or more year's study".

(continued on reverse)

D. CLASSIFICATION OF ENROLLMENT BY ATTENDANCE STATUS: A full-time student is one whose academic load in terms of course work or other activity *(such as a thesis, research, or teaching)* is at least 75% of that normally required of such students. Time spent by teaching fellows should be included only if such teaching is performed as a requirement for a degree. Employment which is not a part of the prescribed activity for an advanced degree or time spent on work required because of lack of undergraduate background should not be counted as time spent on graduate work. A part-time student is one who is carrying an academic schedule of less than three-fourths the normal load.

E. PLEASE EXPLAIN exceptionally large increases or decreases in specific fields of study, the absence of enrollment in previously reported curriculums, etc.

F. Please answer the three new questions at the end of Part A of the questionnaire, *(after Item No. 9800)*. Two of the questions pertain to student status. The third question concerns foreign students. *(Foreign students are defined as all foreign nationals studying at institutions of higher education, regardless of whether they state they plan to remain in the United States.)* If these additional questions cause any special difficulties for you, please do not delay returning your questionnaire because of them. The requested information may be submitted when you have it available.

G. Before submission, please verify that the total column *(Column 13)* is the sum of Columns 5-12 for all line entries. In addition, the area subtotals *(for example, Lines 18, 44, 56, 64, etc.)* are to be the sum of the specified preceding lines for every column *(Columns 5-12)*.

H. For your convenience in tabulating and checking these subtotals and grand totals, a worksheet has been provided as the last page in the questionnaire package. The worksheet need NOT be returned with the survey; it is here only to help you organize the information for checking the totals.
